

Local Faith Institutions

The Church of St Peter and St Paul, Abington (known locally as 'The church in the park') is located in the middle of Abington Park, Northampton. It was built over 800 years ago and was built as a place of worship for the inhabitants of the manor house and the estate workers and their families.

The manor house is now Abington Museum and the church remains a place of worship for the local area. The families who once owned the manor house are commemorated in the church e.g. Sir John Bernard and his wife Elizabeth Nash (who was Shakespeare's granddaughter) and William Thursby who was a barrister and an M.P. for Northampton. The carved wooden pulpit is believed to have come from the workshop of Grinling Gibbons and the window in the Lady Chapel is the work of John Piper.

Christ Church was consecrated in 1906 and its parish extends from the boundary of Abington Park towards the town centre. Local architect, Matthew Holding designed the church in the 14th century style. The West end of the church was completed in the 1980's designed by another local architect, Maurice Walton. The Church houses a fine Aeolian organ, a gift of the Barratt family in 1961 when it was moved from their family home in Kingsthorpe. The church is open regularly through the week but please call the Church Wardens or our Parish Priest if you are making a special visit.

Christchurch Northampton delivers assessment and rehabilitation for a spectrum of neurological conditions, mainly acquired brain injury and also provides longer term support for individuals with complex neurological conditions that require on-going rehabilitation to maintain their level of functioning. Conveniently situated in Abington, Christchurch Northampton offers easy access to local amenities, occupational and educational opportunities and a wide variety of social and leisure activities.

Assessments are free of charge and without obligation. **Owner:** [Christchurch Group](#)
