My Ward - Your ward profile analysed

Ward Name

In the future this will include:

We will carry out analysis of ward data over time and against county and national levels, identify key areas where the data stands out as different or changing, and comparisons with District, County and National Figures. We will provide insight into how your "patch" looks compared with other areas in Northamptonshire.

Population

Looking at change in population over time and differences with similar areas and against different geographies

Education

Seeing how achievement is changing and how other factors make a difference to results

Crime

Comparing against other areas and geographies (district/borough, county, region and national). Commenting on trends

Health

Comparing against other areas and geographies (district/borough, county, region and national). Commenting on trends
